

Add some color to your life! And leap for joy!

...with a new way to enjoy a POS system from RMS.

Initial response to our new rental option has been enormous.

In addition to purchasing or leasing a POS system from RMS, customers may now choose a rental option for a term of 36 or 48 months. The rental option is an all inclusive program with one monthly charge covering hardware, software, installation and training, and 24/7 technical support.

At the end of the rental term the customer may opt to sign a new agreement in which case, RMS will return to the site, replace all of the hardware with the latest technology, and provide additional advanced training. RMS will also remove all of the old hardware from the site.

The rental option ensures pharmacies are equipped with the latest and greatest technology at all times. Call for more information today!
