“RMS has provided us with needed functionality by providing us with a centralized data base. All items, costs and pricing are at our fingertips. New items are added quickly and information is accessed easily. Our pricing issues have been greatly reduced.

With our 15 stores, having a common database makes it easy for our customers to shop at any one of our locations. Having centralized accounts receivable streamlines the entire process. In the long term, we expect to greatly improve our efficiency.

Doing business with RMS is like working with friends and family. As a group, they are professional, reactive, and are quick to work out issues. As each month passes, we are making great strides in creating a POS system that is just right for where we want to be.”
